|--|---|---|
| <input type="checkbox"/> April 9 10:00am | Pond Cleaning Demonstration | Learn the steps it takes to clean your pond. We will clean a pond at our store during the seminar – don't worry, you will just watch! We will offer tips on how to prepare your pond so that it will be healthy and beautiful all season long! Dress appropriately to be outside. |
| <input type="checkbox"/> April 23 9:00am | How to Build a Pond (Classroom) | This class discusses the topic of how to build a pond using a waterfall filter and skimmer. This is a classroom seminar not a hands-on demonstration, but you'll get a good understanding of how the components work together and how to get started on your new pond! From the initial design to finishing the edge, we'll cover it all. There is no charge for this seminar. PRE-REGISTRATION By April 20 is requested. |
| <input type="checkbox"/> May 14 9:00am to 4:00pm | Water Garden Symposium
\$20 Fee | <p>A Day of Fun and Learning!
Are you new to water gardening or are you a seasoned water gardener who wants a more in-depth knowledge about the hobby? Please join us for a new event this year the Cool Ponds Water Garden Symposium.</p> <p>Topics Include:
Algae — Learn how to beat it, treat it, and prevent it!
Aquatic Plants — Find out what plants are best for your feature, are easy to grow, and make the most natural setting.
Filtration — Learn different types of filtration, what's new in filtration, and what type of filtration to avoid.
Fish — We all love our fish. Do you know how to keep them healthy all year long?
Maintenance — Seasonal maintenance, investigating leaks, and pump maintenance are just a few topics covered.
Underwater Lighting — The hottest trend in water gardening. Learn how to keep those lights on and to design a lighting package.</p> <p>Class Fee \$20 — includes Chick-fil-a lunch, a packet of instructional materials, and coupons valued at over \$50. Class size is limited.
PRE-REGISTRATION By May 7 IS REQUIRED</p> |
| <input type="checkbox"/> June 11, 8:30am | Build a Pond Day
\$75 Fee Per Person
(Refundable with kit Purchase) | During this class, attendees will actually build a pond! Learn how our crew builds beautiful, natural, low-maintenance ponds. Plan to spend the day. Lunch and instructional materials are provided. Class is held rain or shine. Class fee \$75 but entire fee is credited toward pond kit purchases.
PRE-REGISTRATION By June 4 IS REQUIRED |
| <input type="checkbox"/> June 18, 8:30am | Build a Pond-free Waterfall Day
\$75 Fee Per Person
(Refundable with kit Purchase) | During this class, attendees will build a pond-free waterfall from start to finish! Learn the tricks of the trade while working along side our installation crew. Plan to spend the day. Lunch and instructional materials are provided. Class is held rain or shine. Class fee \$75 but entire fee is credited toward pond-free kit purchases.
PRE-REGISTRATION by June 11 IS REQUIRED |
| <input type="checkbox"/> September (Date and Time TBA) | Pond Netting Demo | Stop fighting leaves in your water feature once and for all. Watch us as we net our features at our store. Trust us...you'll want to see this! |
| <input type="checkbox"/> October 8 (Times TBA)
Specials All Day | Fall Water Feature Care | Do you know how to care for your pond in the fall? Do you know what steps to take now to make sure your pond gets a healthy start next spring? Join us for one of our Fall Maintenance Seminar to have all your questions answered. Don't miss our fall product specials and close-outs on aquatic plants and fish! |
| <input type="checkbox"/> November 12 (Times TBA), | Winterizing Your Water Feature | Winter's approaching...are you and your water feature ready? Learn what you need to do and how to prepare before the temperatures fall below freezing. This seminar picks up right were our Fall Care Seminar left off. Each winter with your water feature can be very different. We'll teach you what to expect. |
